- Marathi (Fluent)

## PROFILE

Motivated and detail-oriented Artificial Intelligence student with a strong foundation in Python, machine learning, and data analysis. Skilled in developing data-driven solutions and working with real-world datasets to extract meaningful insights. A quick learner with strong problem-solving abilities, seeking an opportunity to apply technical skills in a dynamic environment while continuously enhancing knowledge in AI and data science.

## EDUCATION

**Bachelor of Technology in AI&DS** 2023-2027  
Vidyavaridhi's College of Engineering and Technology, Vasai  
University Of Mumbai  
**GPA:** 7.00

**Government Polytechnic College, Miraj** 2020-2022  
Diploma in Computer Engineering

## PROJECTS

### Intelligent Plant Disease Analyzer

- **Situation/Task:** To detect and classify plant diseases from leaf images for early disease identification.
- **Action:** Used CNN and image processing techniques to train the model on plant leaf datasets.
- **Result:** Achieved high accuracy in disease detection.

### AI-Based Student Dropout Prediction System

- Developed a machine learning model to predict students at risk of dropping out using academic, demographic, and behavioral data.
- Implemented data preprocessing, feature selection, and model training using Python, Pandas, NumPy, and Scikit-learn.
- Evaluated model performance using accuracy, precision, recall, and F1-score, achieving high predictive accuracy
